Yunus Senem.

Senior Full Stack Developer *Independent app developer*

(01) — SUMMARY

I have been building software professionally since 2015. On a PHP/Symfony foundation I ship scalable web and mobile products in the *TypeScript ecosystem*, and today my time goes to *my own apps*.

(02) — EXPERIENCE

ynssenem.dev

Nov 2025 – present · Antalya

Founder & independent app developer

- I design, build and publish my own iOS, Android, macOS and web apps.
- I run the redundant, self-hosted Appwrite stack on Hetzner and Cloudflare that the apps share.
- I take on selected contract full stack work and technical consulting for SMEs and startups.

RMOS Software

Jul 2024 – Oct 2025 · Antalya

Senior Frontend Developer & Team Lead

- Re-architected a Next.js Hotel PMS into a modular structure on a Turborepo monorepo.
- Optimised CI/CD pipelines, cutting build time by 75% (from 17 to 4 minutes).
- Led a team of 5–6 developers: code reviews, mentoring and sprint planning.
- Evaluated candidates and designed case studies for technical hiring.

PttAVM (PtteM)

Feb 2023 – Oct 2023 · Ankara

Senior Full Stack Developer · Product team

- Developed high-traffic product listing and management systems.
- Optimised MySQL queries to improve response times and reduce system load.
- Worked on Elasticsearch and RabbitMQ integrations.
- Shipped regular production deployments in an Agile/Scrum team.
